* For new designs, we recommend the less expensive TS 8 enclosure system, which has been improved in many details.

The original – proven a million times over

The highly successful Rittal AE series of compact enclosures has been on the market for over 30 years. A continuously updated and extended range now offers a standard of quality unrivalled in large-scale industrial production. This accounts for its attractive value for money, not to mention excellent design and numerous important, internationally recognised approvals and authorisations.

A choice of 68 different variants with a painted surface finish, in stainless steel, EMC shielded, single-door or double-door versions, with glazed door or operating panel, covers every conceivable requirement.

German patent no. P 3812 972
US patent no. 4,951,980
German registered design no. 1MR 371
IR reg. design no. DM/011 876
with validity for BE, CH, ES, FR, IT, LU, NL
European patent no. P 0 349 713
with validity for FR, GB, IT

AE compact enclosures have the following approvals (except AE with glazed door):

- UL
- CSA
- TÜV
- Germanischer Lloyd
- Norske Veritas
- Russian Maritime Register of Shipping
- Lloyds Register of Shipping
- Bureau Veritas
- VDE

AE compact enclosures, stainless steel – see page 280/281.

AE compact enclosures EMC shielded – see page 302/303.

The alternative materials:

Plastic

- PK see page 32/33
 - KS see page 86/87
- Cast aluminium
- GA see page 40/41

Wall mounting

Wall mounting holes are already provided on the rear (except with AE stainless steel and EMC version).

Eyebolts

All AEs with a height of 1000 mm and above have holes in the roof to accommodate eyebolts (except AE stainless steel and EMC version).

Connection facilities for PE conductors are provided on the enclosure, door and mounting plates.

Punched for interchangeable door hinges in all single-door models, except AE 1032.600 and AE 1035.600.

The prepunched holes for wall mounting brackets in the rear panel eliminate the need for additional marking out and drilling.

1 There are perforated mounting strips vertically spot-welded on both sides of the door, for speedier attachment of cable harnesses, cable ducts, and covers.
(On one side only with AE 1032.600 and AE 1035.600)

2 The foamed-in PU seal ensures a reliable seal.

3 Door opening angle approx. 130°, may be exchanged for 180° hinges SZ 2449.000.

4 An extra-narrow edge fold provides a more generous enclosure opening, which in turn means a larger mounting plate and more usable space with the same sized enclosure.

5 Multifolded enclosure protection channel prevents the ingress of dirt and water when the door is opened.

6 Mounting plate is depth-adjustable on studs.

7 The sealed cable gland plates of sheet steel may be exchanged for prepunched plastic gland plates.

8 Enclosure folded from a single piece.

9 Electrophoretic dipcoat priming and textured powder coating in RAL 7032.

10 The double-bit insert with cam lock or locking rod is easily exchanged for any standard lock insert.

Standard double-bit lock insert may be exchanged for 27 mm lock inserts, type A – see page 942
Safety cylinder, plastic handles and T handles, type B – see page 940 – 943

* Packs of 10

For primed enclosures in RAL 7044, please add extension .800 to the Model No. For textured RAL 7035, use extension .500. Delivery times available on request.

COMPACT ENCLOSURES AE

Width: 380 – 600, height: 500 – 1000

+ **Accessories:**

See page 876/877 or refer to index.

Material:

Sheet steel
 Enclosure: 1.5 mm;
 1.38 mm for AE 1045.600,
 AE 1038.600, AE 1050.600,
 AE 1060.600, AE 1076.600
 Door: 2.0 mm;
 1.5 mm for AE 1045.600,
 1.75 mm for AE 1038.600,
 AE 1338.600, AE 1050.600,
 AE 1350.600, AE 1060.600,
 AE 1360.600

Surface finish:

Enclosure and door:
 Dipcoat primed in RAL 7044,
 powder coated in textured
 RAL 7032 on the outside
 Mounting plate: Zinc-plated

**Protection category
 to EN 60 529/10.91:**

IP 66
 IP 56 for AE 1076.600,
 AE 1376.600, AE 1057.600,
 AE 1058.600, AE 1090.600
 Complies with NEMA 4.

Wall angle also suitable for mounting enclosures with heavy installed equipment.
 Model No. see page 963.

Wall mounting bracket
 For simple mounting directly to the wall.
 Model No. see page 962.

Wall mounting bracket
 Permits cable routing behind the enclosure.
 Model No. see page 962.

Lock systems

Operating panel: Standard double-bit lock insert may be exchanged for 41 mm inserts, type C, see page 942 and type C plastic handle, see page 940

COMPACT ENCLOSURES AE

with glazed door and operating panel

Accessories:

See page 876/877
or refer to index.

Supply includes

AE with operating panel:

Enclosure of all-round solid construction,
1 gland plate in the enclosure base,
double-bit cam lock in left-hand extrusion,
mounting plate: Zinc-plated,
r/h hinged aluminium frame,
operating panel plate.

Supply includes

AE with glazed door:

Enclosure of all-round solid construction,
1 gland plate in the enclosure base,
mounting plate: Zinc-plated;
With 34 mm glazed door:
Aluminium frame,

glazed acrylic pane, hinges,
plastic handle with lock insert
no. 3524 E.

Material:

Enclosure: Sheet steel
Operating panel: Operating
panel plate and frame aluminium
Glazed door: Aluminium frame
and glazed acrylic pane

Surface finish:

Enclosure:
Dipcoat primed in RAL 7044,
powder coated in textured
RAL 7032 on the outside
Aluminium parts:
Natural anodised
Mounting plate: Zinc-plated

Protection category:

IP 54 to EN 60 529/10.91

Universal bracket

For simple mounting of
various accessory parts.
Model No. see page 996.

Command panel based on AE with VIP frame

see page 230/231.

AE 1260.600 (AE 1280.600)

Supply includes:

Enclosure of all-round solid construction, single door,
 1 gland plate in the enclosure base,
 r/h door hinge, can be changed to opposite side,
 3-point lock system, prepared for use of the Ergoform-S lock system,
 foamed-in door sealing gasket,
 zinc-plated mounting plate.

Note:

400 mm deep AK enclosures, see page 84/85.

Compact enclosures AK

Rittal offers a powerful midway solution for smaller control units and sub-divisions. Proven a million times over, it also has the correct volume to suit every space requirement.

All AK enclosures have the following approvals:

- UL
- CSA
- TÜV
- Germanischer Lloyd
- Norske Veritas
- Russian Maritime Register of Shipping
- Lloyds Register of Shipping
- Bureau Veritas
- VDE

W mm	H mm	D mm	Model No. AK	Page
600	1200	400	1646.600	84/85
800	1200	400	1648.600	
1000	1200	400	1650.600	
1000	1400	400	1647.600	
1200	1200	400	1652.600	

The sealed two-part gland plates are easily removed and can also be fitted with a self-adhesive foam rubber cable clamp strip (see page 893).

The standard double-bit lock insert is easily exchanged for any standard type A 27 mm lock insert and Ergoform-S lock system.

Holes are provided in the top to accommodate eyebolts.

The robust, space-saving hinges with captive pins guarantee a door opening angle of 130°. Easily converted to 180° hinges (see page 949).

The high floor clearance of 33 mm eliminates the need for an additional base/plinth in many applications.

The 800 and 1200 mm wide enclosures can be integrated into AP console systems, additional holes are required.

1 Vertically arranged perforated mounting strips on the door for quick, easy attachment of cable supports, cable trunking, stiffeners and covers.

3 Door hinge may be swapped from right to left in all single-door enclosures, by simply unscrewing and re-positioning the hinges. Double doors may also be swapped.

5 Facilities for PE conductor connection on the enclosure and door with contact washers.

7 The 2-part, zinc-plated gland plates are easily removed and retro-fitted with the rubber cable clamp strip SZ 2573.000.

9 Smooth-action locking rod with waterproof double-bit insert to DIN 43668. Easily exchanged for any standard lock insert and the Ergoform-S lock system.

2 Electrophoretic dipcoat priming and powder coating – the safe form of surface protection, with uniform coating of all corners and edges in textured RAL 7032.

4 The multi-folded enclosure aperture is angled upwards and provides increased stability and greater protection against dust and moisture when opening the door.

6 The mounting plate, which is secured with studs, is easily removed and refitted.

8 Foamed seal on the inside of the door ensures protection category IP 55 to EN 60 529/10.91.

10 The robust, space-saving hinges do not protrude into either the door opening or the enclosure interior. Easily converted to 180° with hinges SZ 2579.000

Lock systems

Standard double-bit lock insert may be exchanged for 27 mm lock inserts, type A – see page 942 and Ergoform-S lock system – see page 939

For primed enclosures in RAL 7044, please add extension .800 to the Model No. For textured RAL 7035, use extension .500. Delivery times available on request.

+ **Accessories:**

See page 876/877 or refer to index.

Material:

Sheet steel
Enclosure: 1.5 mm
Door(s): 2.0 mm
Mounting plate: 3.0 mm

Surface finish:

Enclosure and door(s):
Dipcoat primed in RAL 7044,
powder coated on the outside
in textured RAL 7032
Mounting plate: Zinc-plated

Protection category:

IP 55 to EN 60 529/10.91
Complies with NEMA 12.

System window to protect against unauthorised access and preserve the protection category.
Model No. see page 928.

Connection component with circuit-breaker 10 A.
To supply system lights.
Model No. see page 999.

Signal pillar
For system monitoring.
Model No. see page 1000.

Plastic enclosures KS

Fully insulated enclosures to VDE 0100, paragraph 6.2, of fibreglass-reinforced, unsaturated polyester, self-extinguishing to ASTM D 635 and UL 94-V0, withstanding temperatures of between -30 °C and +100 °C, dyed light grey throughout, in a shade similar to RAL 7032 to DIN 43 656; suitable for overpainting.

Standard threaded brass inserts M8 x 15 in the rear panel for direct wall mounting of the enclosure from behind or for the use of wall mounting brackets. Press-fitted C rails in the enclosure to accommodate infinitely variable mounting plate adjustment brackets KS 1481.000 and KS 1491.000, allowing you to create several mounting levels. Double seal at the top and bottom edge of the door in all enclosures, thanks to a built-in rain protection strip of hard PVC with co-extruded PVC sealing lip.

German patent no. P 34 40 899
European patent no. P 0 180 825
with validity for BE, FR
US patent no. 4,665,654
Japanese patent no. P 1 659 174

Plastic enclosures KS have the following approvals:

- UL (without viewing window)
- CSA (without viewing window)
- TÜV
- Germanischer Lloyd
- Norske Veritas
- Russian Maritime Register of Shipping
- Lloyds Register of Shipping
- Bureau Veritas
- VDE

Rittal plastic enclosures KS: The alternative for all situations where special protection is required, e.g. for external siting or in aggressive ambient conditions.

Fitted as standard with universal mounting aids, such as press-fitted rows of inserts, in the enclosure and door.

1 Press-fitted C rails in the enclosure to accommodate infinitely variable mounting plate adjustment brackets KS 1481.600 and KS 1491.600, allowing you to create several mounting levels.

2 Mounting plate secured on screw-in studs in threaded brass inserts M8 x 12.5, for easy installation and removal.

3 Prepunched guide bushes in the rear wall of the enclosure for drilling without marking out; direct screw-fastening of the enclosures from the front.

4 Fully insulated enclosure of fibreglass-reinforced, unsaturated polyester.

5 Mounting plate of 2 – 3 mm sheet steel, zinc-plated.

6 Door lock with water-proof double-bit 3 mm lock insert to DIN 43 668 of fibreglass-reinforced polyamide. May be exchanged for type E lock inserts, see page 942.

7 Double seal at the top and bottom edges of the door in all enclosures, thanks to a built-in rain protection strip of hard PVC with co-extruded PVC sealing lip.

8 All-round foamed-in PU seal in the moulded U-section of the door.

9 Press-fitted mounting inserts in the door and rear panel of the enclosure serve as a mounting aid for attaching cable trunking and cross rails, and for direct screw fastening using threaded inserts.

10 Enclosures with locking rod (see page 90/91) have additional door reinforcement.

11 KS 1400.600 additionally with centre bar in the enclosure, which may be dismantled.
